GAME PROJECTS

Galactic Escape | Unity | C#

2D Game Development

- Developed a 2D endless-runner game using Unity and C#.
- Implemented gameplay functionality and mechanics as part of game development coursework.
- Developed with a mobile platform in mind.

Undead Survival | GameMaker Studio | GML

2D Game Development

- Developed a top-down shooter using GameMaker Studio and GML.
- Implemented gameplay mechanics and functionality within the GameMaker environment.

Galaxy Defense | GameMaker Studio | GML

2D Game Development

- Developed a 2D scrolling space shooter using GameMaker Studio and GML.
- Applied programming and game-development principles to create an interactive playable project.

PROFESSIONAL EXPERIENCE

Control Centre Operative | National Windscreens

June 2023 – May 2024 | Glasgow

- Managed incoming customer calls and enquiries within a busy control centre environment.
- Created new jobs and arranged bookings for vehicle windscreen services.
- Managed existing jobs, contacting customers to obtain information and update job details.
- Liaised directly with insurance companies and branches across the UK to coordinate customer requirements.
- Ordered stock and coordinated requirements for individual jobs.

Founder | Gewey Limited

June 2022 – September 2023

- Founded and operated a small web hosting and development business serving small businesses.
- Used reseller hosting services to provide and manage website hosting for clients.
- Built and maintained client websites using WordPress and managed client requirements and updates.

Multiple Positions | Best HR Ltd

June 2021 – May 2023 | Glasgow

- Progressed through Business Development Executive, Executive Assistant, Business Support Manager and Business Support Administrator roles.
- Worked directly with the CEO and COO, providing administrative and operational support across the business.
- Supported lead generation, prospect research, email marketing, HR administration and recruitment sourcing.

- Coordinated meetings, schedules, documentation and minute taking.
- Supported internal systems, process improvements, automation and day-to-day business operations.
